ACCESSING YOUR WORKSPACE

When you log in to your Taskstream account, you will be taken to your Taskstream homepage. Your home page will contain the office, department, or unit you are affiliated with, and a link to the Academic and Student Support Services Workspace that will be used to help manage and track data related to assessment and continuous improvement for that area. To start entering this data, click the Academic and Student Support Services Workspace link underneath your unit's name.

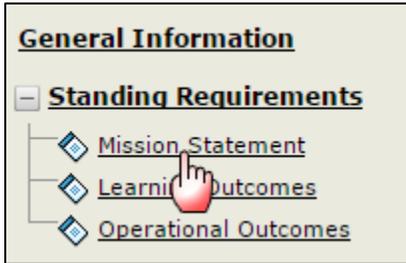

STANDING REQUIREMENTS

When you open your workspace on your homepage, you will see this structure of the workspace on the left-hand side.

The Standing Requirements category will contain assessment data that will remain relatively steady over time, whereas the Annual Assessment Cycles will be completed anew each year.

MISSION STATEMENT

1. The Mission Statement requirement is the first in the structure where you'll be entering data. To begin working on it or any other requirement, click on its name from the workspace structure.

2. Click the green Check Out button in the upper right-hand corner of the screen to start entering data.

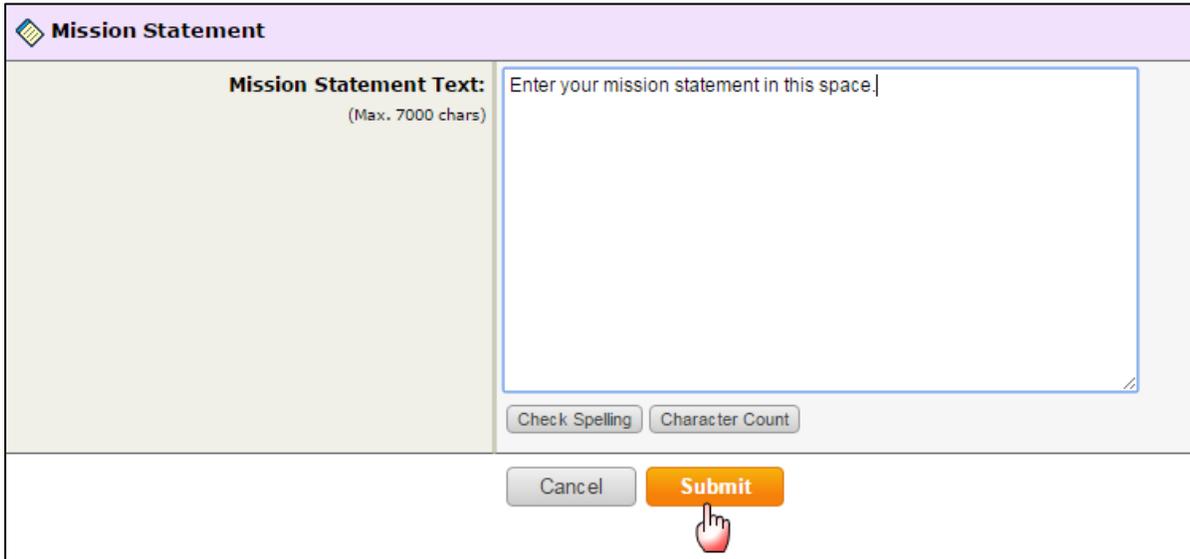

Note: All requirements in Taskstream's AMS platform use a Check Out / Check In system. To edit or add data to any requirement you will first need to check out that requirement, and other users will not be able to edit that requirement until you have first checked it back in.

3. When you click the Check Out button, the Edit button will appear on the far right. Click Edit to add your mission statement data.

Note: If content has already been added to the area, you will be able to add to and/or modify it.

- Once you have entered the appropriate mission statement, click Submit.

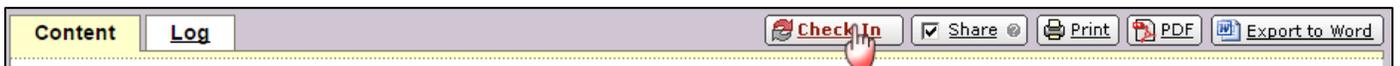

The screenshot shows a form titled "Mission Statement" with a purple header. Below the header, there is a section labeled "Mission Statement Text:" with a sub-label "(Max. 7000 chars)". To the right of this label is a large text input area containing the placeholder text "Enter your mission statement in this space.". Below the input area are two buttons: "Check Spelling" and "Character Count". At the bottom of the form are two buttons: "Cancel" and "Submit". A hand cursor is pointing at the "Submit" button.

The screenshot shows a confirmation message box with a purple header labeled "Confirmation". The message text reads "The Mission Statement has been updated." Below the message is a link labeled "Return to Work Area" with a hand cursor pointing at it.

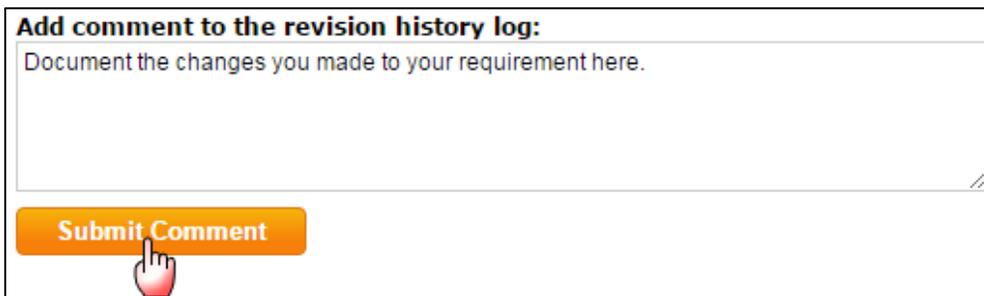

- Return to Workspace by clicking **Return to Work Area**.

- When you are finished, click Check In in the upper right-hand corner of the page that replaced the Check Out button. This will allow your colleagues to view the changes you made, and add content themselves.

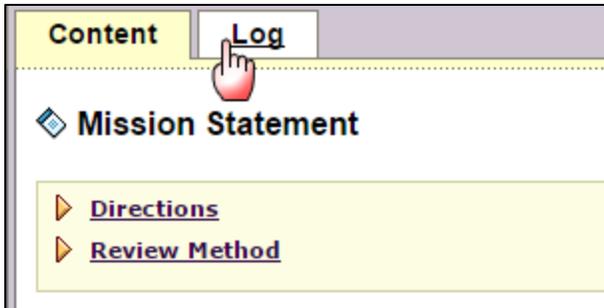

The screenshot shows the footer of the page. On the left, there are two tabs: "Content" and "Log". On the right, there is a row of buttons: "Check In", "Share", "Print", "PDF", and "Export to Word". A hand cursor is pointing at the "Check In" button.

- After you click Check In, you will be prompted to document the changes you made to your requirement in the Revision History Log. Please enter a brief description of the content you entered while the requirement was checked out to you and click Submit Comment.

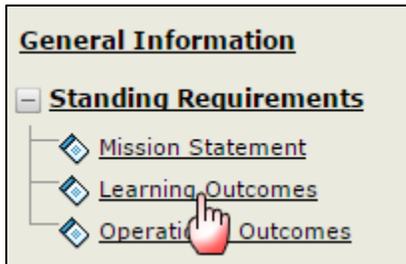

The screenshot shows a form titled "Add comment to the revision history log:". Below the title is a text input area with the placeholder text "Document the changes you made to your requirement here.". Below the input area is a button labeled "Submit Comment". A hand cursor is pointing at the "Submit Comment" button.

8. To access the history of all instances when a requirement was checked out and checked back in, along with any comments recorded in the Revision History Log, click the Log tab above the requirement title.

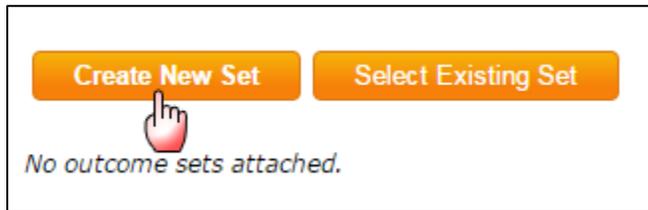

LEARNING OUTCOMES

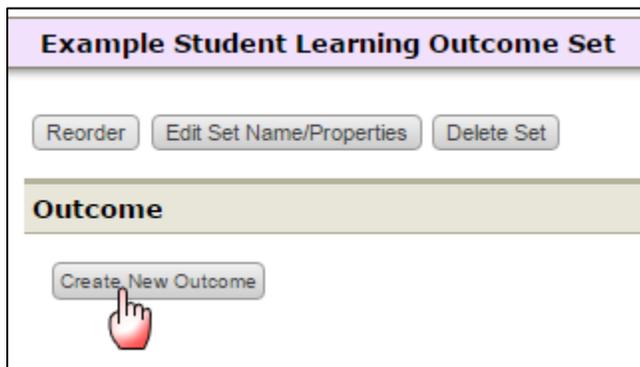

1. When you are ready to enter your department's Learning Outcomes- what your students will know or be able to demonstrate through involvement with your unit- click on the name of the appropriate requirement from the workspace structure.

2. Click the green Check Out button in the upper right-hand corner of the screen to start entering data.
3. Then, click the Create New Set button.

4. Enter a title for your Outcome Set and click Continue. You need not select the box stating that outcomes in other sets will need to be aligned to this one.

Create New Outcome Set	
Set Name:	<input type="text" value="Example Student Learning Outcome Set"/>
Designate Alignment/Mapping Preference:	<input type="checkbox"/> Outcomes in <i>other</i> sets will need to be aligned to Outcomes in this set. (When checked, mapping will be allowed)
<input type="button" value="Cancel"/> <input type="button" value="Continue"/>	

5. Once you return to the main page for this requirement, you can add an Outcome, by clicking the Create New Outcome button.

- Enter a concise title for your outcome (max 140 characters) in the Outcome field, and an optional, more detailed description in the Description field. Click Continue when you are finished.

- You are prompted to add mapping (explained below), add another Outcome, or return to all Outcome Sets. Click “Back to all outcome sets” to view the Outcomes you have entered, and to map or align your outcomes to Service Goals. To do this, click the **Map** link next to the outcome you wish to map.

- Click the Create New Mapping button.

- Use the pull-down menu to select “Goal sets distributed to [Name of Your Area]” and click Go.

10. A second pull-down menu will appear. Search through the options for one of the nine owning areas for the Wake Tech Service Goals. They are:
- Communications
 - Curriculum Education
 - Effectiveness and Innovation Services
 - Enrollment and Student Services
 - Facility Operations
 - Finance and Business Services
 - Human Resources
 - Information Technology Services
 - Workforce Continuing Education Services

Outcome

Outcome

Goal 1: Student Success
Foster student success through retention and completion initiatives, align outcomes with employability and transfer, and create opportunities for multiple entry and stop-out points if feasible.

Goal 2: Student Access
Sustain course needs of existing student populations, increase course offerings to satisfy student request increases through multiple modes of delivery, and provide accessible materials to ensure student access.

Goal 3: Program Quality
Enhance student success through a comprehensive effort to maintain high quality education in all programs by emphasizing continuous improvement and achieving established benchmarks.

31. You will now see the Service Goals aligned with your Operational Outcome. Please note that you can follow steps 8 – 14 above to map an Operational Outcome to multiple kinds of Service Goals.

ANNUAL ASSESSMENT REQUIREMENTS

Once you have documented your Standing Requirements, you may proceed to the cyclical assessment section represented by the category 2015-2016 Assessment Cycle to enter your assessment and continuous improvement data for that year.

ASSESSMENT PLAN

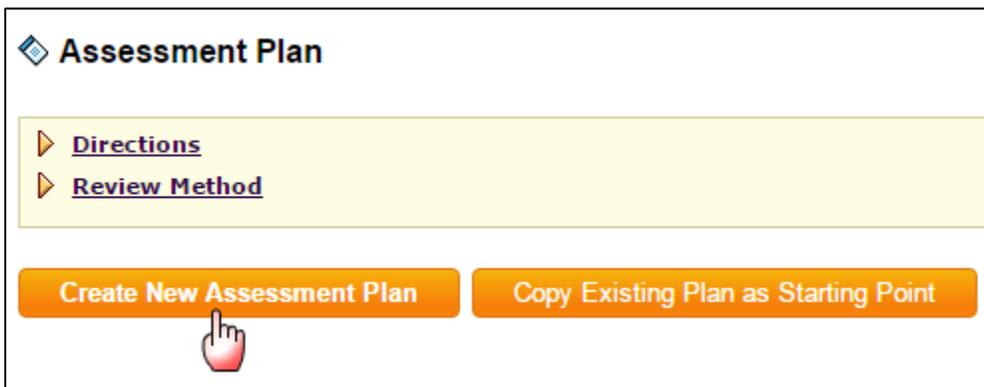

1. The first requirement in your Cyclical Assessment Cycle is for your Assessment Plan, where you identify which Outcomes you are going to assess, and the means by which you will assess them.

2. Click the green Check Out button in the upper right-hand corner of the screen to start entering data.

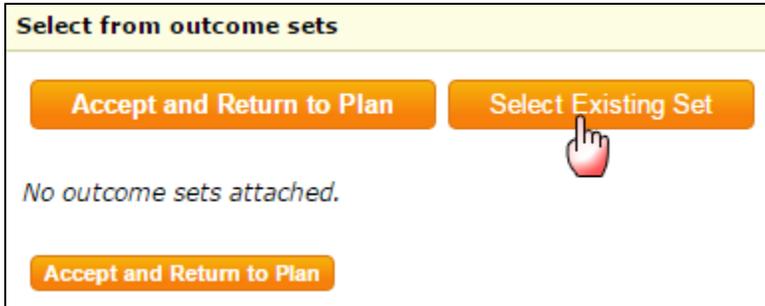

3. Click Create New Assessment Plan.

NOTE: In future years, you will can click “Copy Existing Plan as a Starting Point” to make an editable copy of a previous year’s Assessment Plan as a starting point.

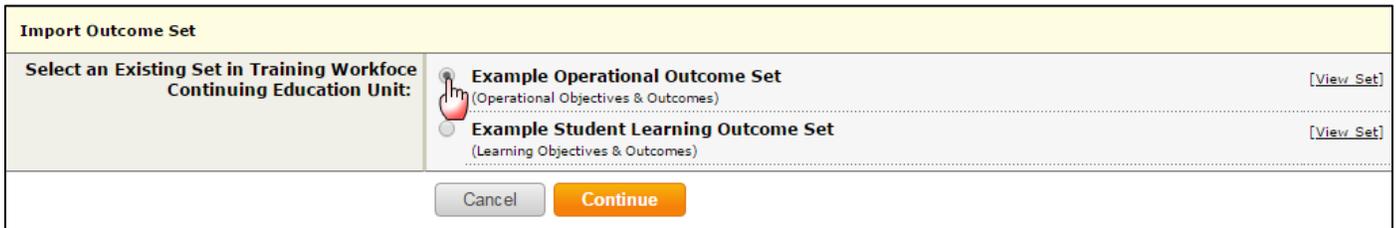

4. Click the Select Set button beneath the Outcomes and Measure bar.

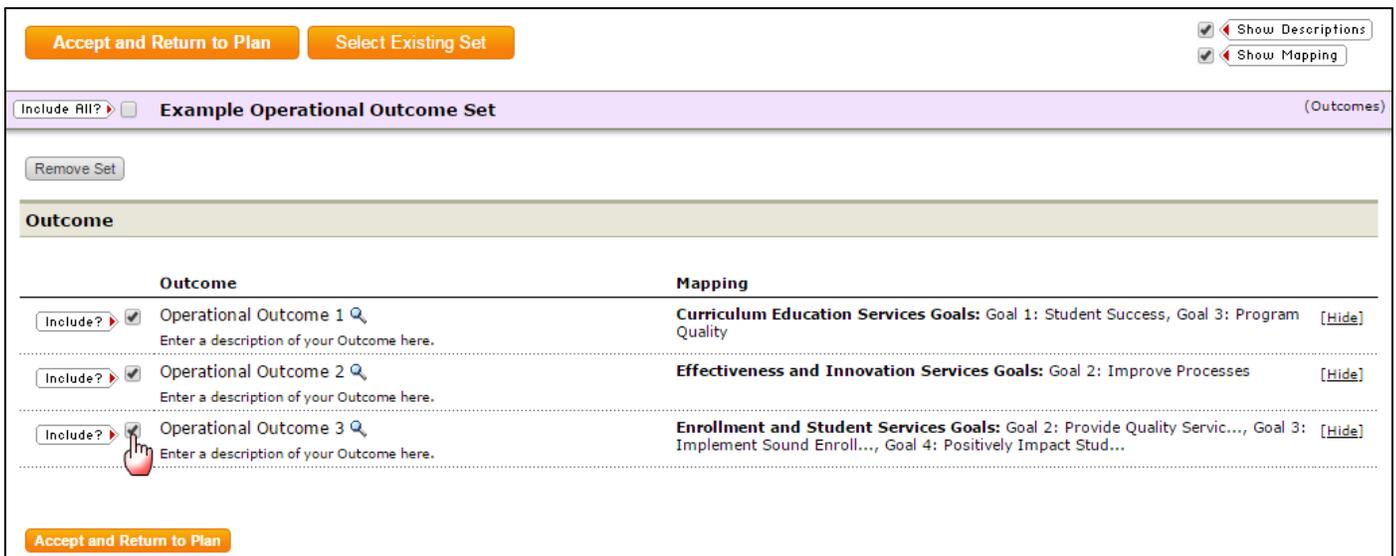

5. Click Select Existing Set.

6. Select the Outcome Set you wish to assess and click Continue.

Note: You are able to pull in Outcome Sets from both your Learning Outcomes and your Operational Outcomes, but you must select one Set at a time. Repeat steps 3-5 above to select your second set.

7. Check the boxes next to the Outcomes you wish to assess and then click either “Accept and Return to Plan” button.

▼ **Example Operational Outcome Set**

Outcome

Operational Outcome 1 *No measures specified*

Enter a description of your Outcome here.

Add New Measure

Operational Outcome *No measures specified*

8. You will be returned to the main page for your Assessment Plan. To add an Assessment Method to an outcome, click the appropriate “Add New Measure” button.

9. You may then add the details of your Assessment Measure into the data entry screen. When you are finished, click Apply Changes.

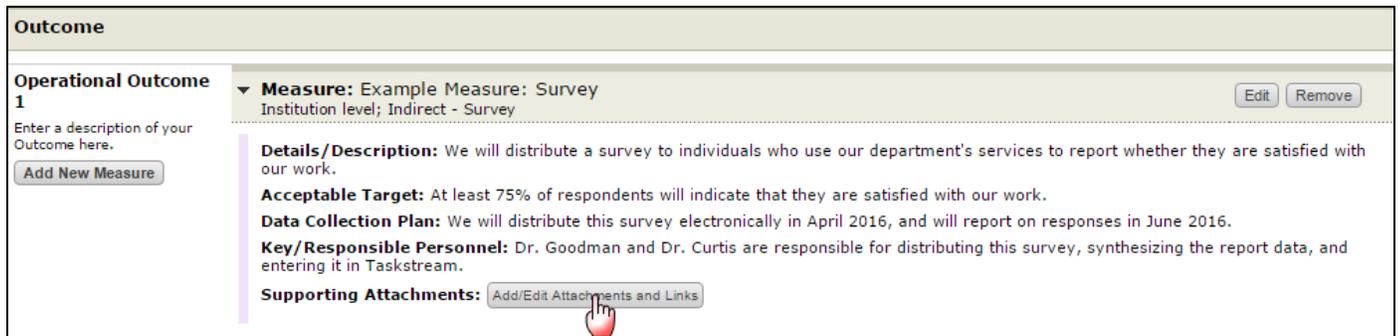

Measure Information for:
Outcome: Operational Outcome 1 (Enter a description of your Outcome here.)

Define a measure for this outcome. Set a near term target that is attainable in this assessment cycle. If applicable, you may also set a long term target that represents the ideal outcome over multiple cycles. Once this measure is added, then you may add supporting attachments and links in the next step (from the main assessment plan screen).

*** Required Fields**

* Measure Title:	Example Measure: Survey
Measure Type/Method:	Indirect - Survey
Measure Level:	Institution
Details/Description:	We will distribute a survey to individuals who use our department's services to report whether they are satisfied with our work.
Acceptable Target:	At least 75% of respondents will indicate that they are satisfied with our work.
Data Collection Plan:	We will distribute this survey electronically in April 2016, and will report on responses in June 2016.
Key/Responsible Personnel:	Dr. Goodman and Dr. Curtis are responsible for distributing this survey, synthesizing the report data, and entering it in <u>Taskstream</u> .

10. You can upload documents from your computer or link to online resources outside of Taskstream to provide more information about your Measure by clicking “Add/Edit Attachments and Links” within that Measure.

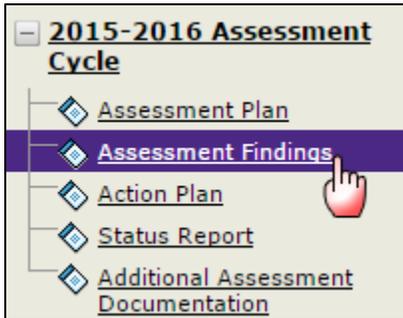

11. You may repeat these steps to add additional Measures for this or other Outcomes. There is no limit to the number of Measures that can be associated to an Outcome.

12. When you are finished, click the Check In button in the upper right-hand corner of the page, and enter a brief description of the changes you made in the Revision History Log.

ASSESSMENT FINDINGS

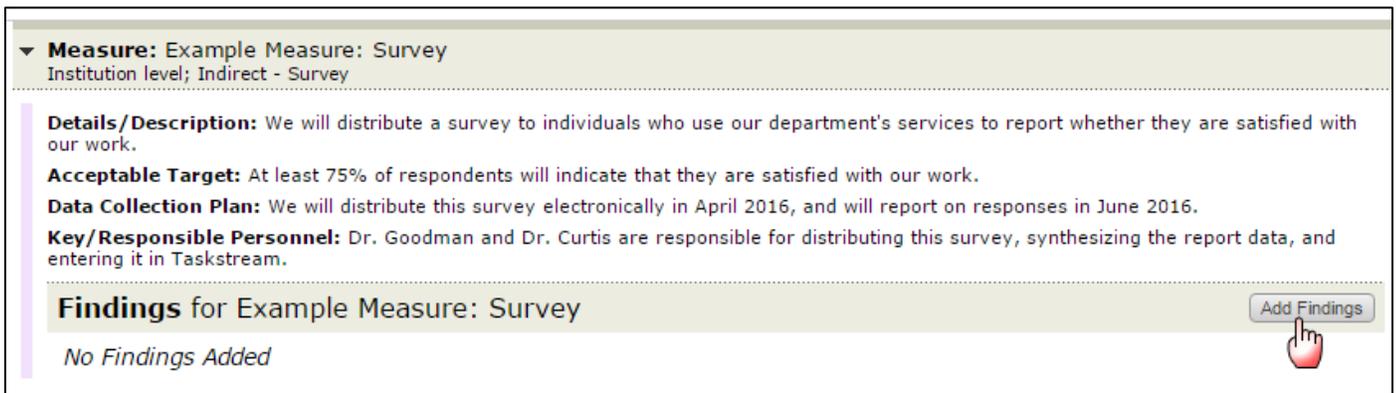

1. Once you have gathered the results of your assessment data, you can document them in Taskstream in the Assessment Findings requirement.

2. Click the green Check Out button in the upper right-hand corner of the screen to start entering data.

3. Locate the appropriate Measure, and then click the Add Findings button to the right of it.

4. Enter the details of your results into the data entry screen. Click Submit when finished.

Findings for Example Measure: Survey	
Outcome: Operational Outcome 1 (Enter a description of your Outcome here.)	
Please enter the findings for this measure.	
* Required Fields	
* Summary of Findings:	70% of respondents indicated that they are satisfied with our work.
Conclusions Based on Data:	From feedback provided, we ascertained that respondents are happy with the quality of our work, but they wish we had more flexible schedules.
Acceptable Target Achievement:	At least 75% of respondents indicate they are satisfied with our work. <input checked="" type="radio"/> Not Met <input type="radio"/> Met <input type="radio"/> Exceeded
<input type="button" value="Cancel"/> <input type="button" value="Check Spelling"/> <input type="button" value="Submit"/>	

5. You will be returned to the main page for Assessment Findings. You can upload documents or link to online resources outside of Taskstream which substantiate your Findings by clicking the “Add/Edit Attachments and Links” button.

8. When you are finished, click the Check In button in the upper right-hand corner of the page, and enter a brief description of the changes you made in the Revision History Log.

ADDITIONAL ASSESSMENT DOCUMENTATION (OPTIONAL)

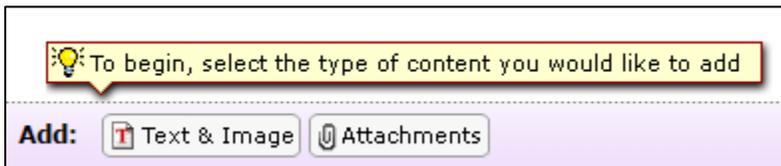

1. If you would like to upload any additional documentation related to your unit's annual assessment and continuous improvement processes, select the Additional Assessment Documentation requirement of your assessment cycle. Please note that this step is optional, based on the needs of your specific unit.

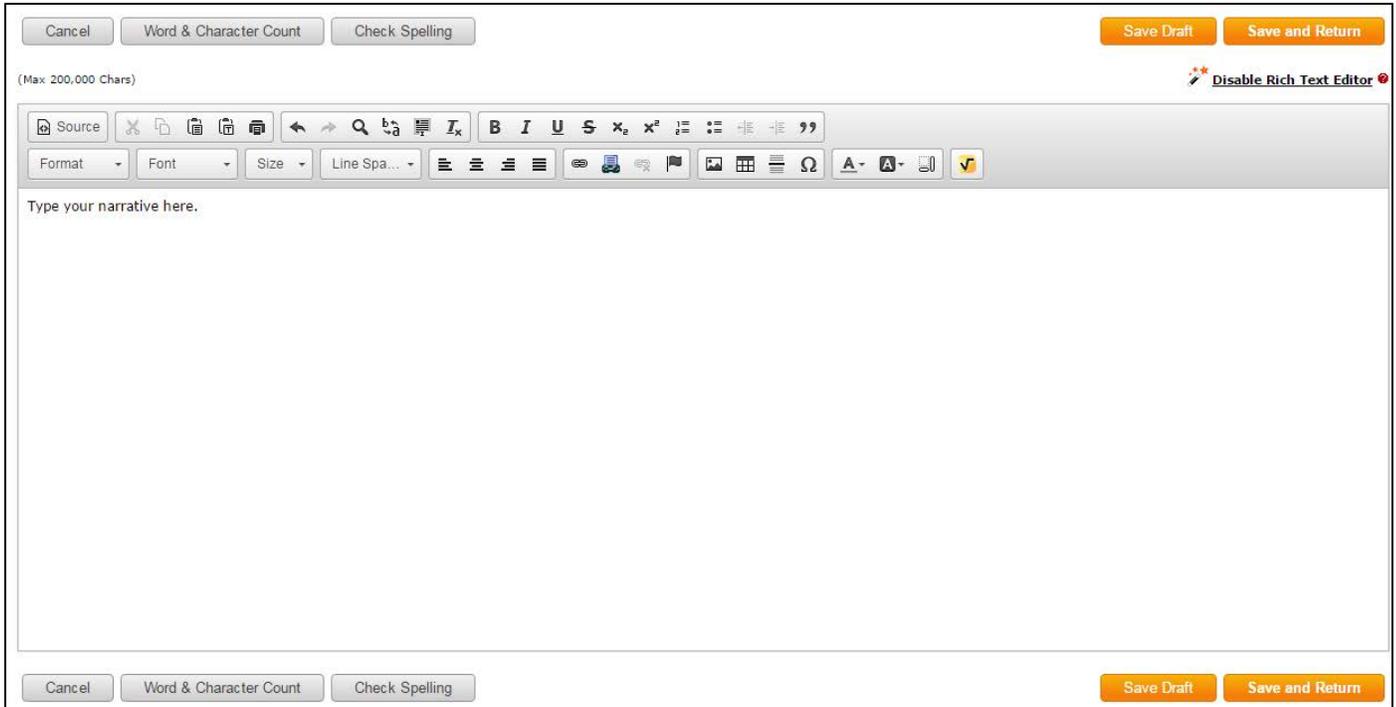

2. Click the green Check Out button in the upper right-hand corner of the screen to start entering data.

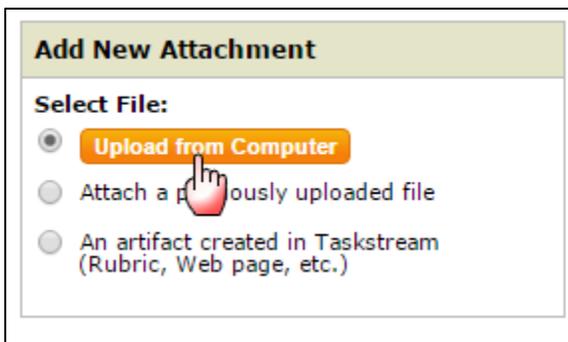

3. At the bottom of your page, you will see two buttons related to different types of content you can add to this area: Text & Image and Attachments.

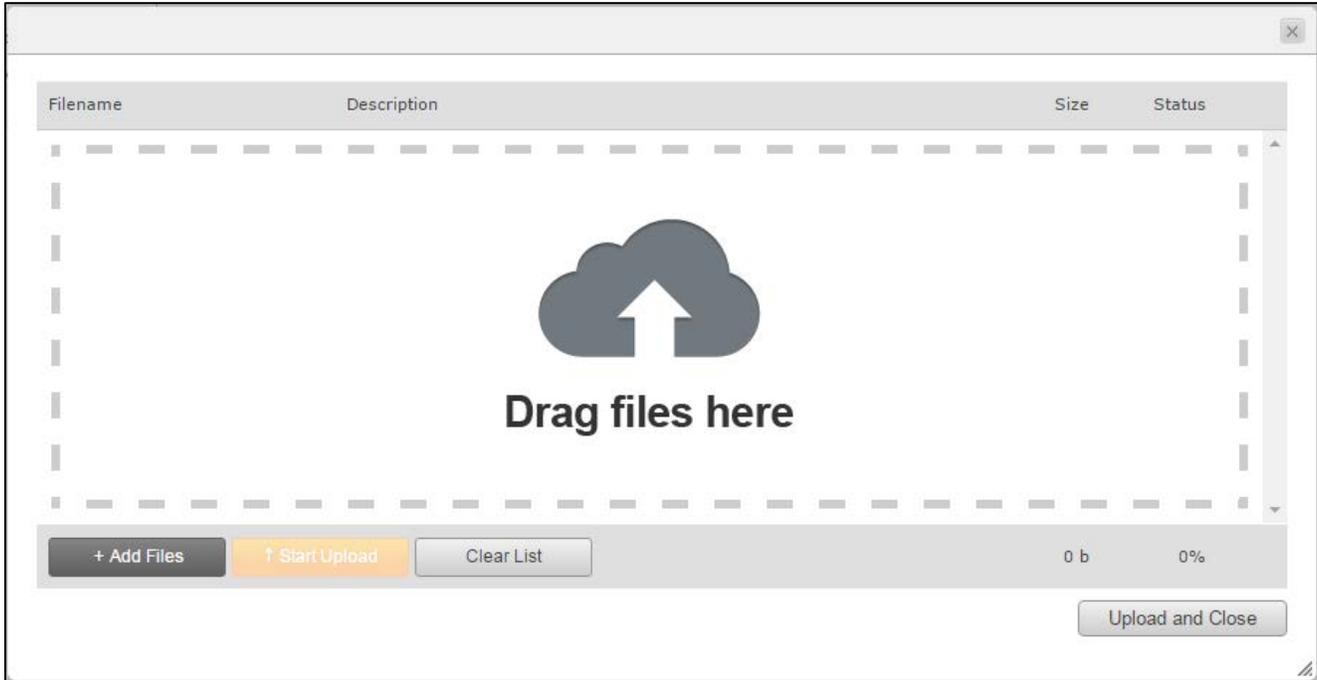

4. If you would like to include additional text-based narrative elements to your assessment cycle, click the Text & Image button. This will take you to a page similar to most word processing programs, including a formatting toolbar. Enter your narrative in the text area, and when you are finished, click either Save and Return button.

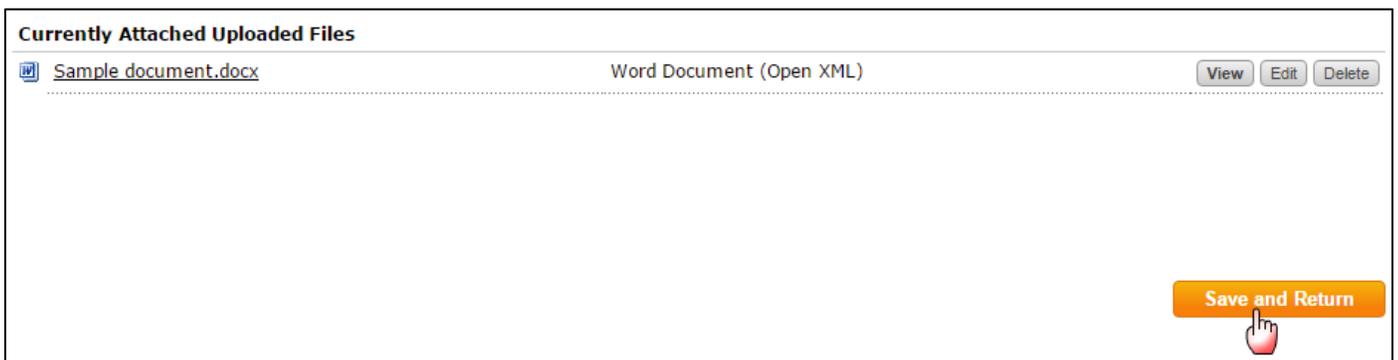

5. If you would like to upload a document from your computer, click the Attachments button.
6. On the following page, click the Upload from Computer button.

7. A window will open. You can either drag and drop your files into the center of the window or click the Add Files button to search through your computer for one or more files that you would like to upload.

8. Once you have selected all of the files you would like to upload, click Upload and Close.
9. All of your uploaded files will appear in the middle of your page. You can view them, edit their name, or delete them by clicking the appropriate buttons to the right. When you are finished, Click Save and Return.

10. When you are finished, click the Check In button in the upper right-hand corner of the page, and enter a brief description of the changes you made in the Revision History Log.

GETTING HELP

If you require assistance with entering data in your workspace or other assistance, you can contact Taskstream at 800-311-5656 and press 2 for support or send an email to help@taskstream.com.
