

REPORT CARD
Study Year 2006-2007

Office of
Institutional Effectiveness
&
Research

September 2008

This publication is Wake Technical Community College's report card on the college's performance in meeting the prescribed eight Critical Success Factor standards established by the state for 2006-2007.

This report is also published on Wake Technical Community College's Planning and Research website.

<http://planningandresearch.waketech.edu/>

Summary Report on Performance Measures	20
Community Services	24
Partnerships	29

INTRODUCTION

In 2007, the North Carolina State Board of Community Colleges and the North Carolina General Assembly reduced the number of performance measures (from 12 to 8) used to gauge the accountability level of each of the fifty-eight institutions in the North Carolina Community College System. As part of this new system each of these eight measures will be linked to a portion (2 percent) of their operating budget established by the North Carolina General Assembly.

1. Progress of Basic Skills Students
2. Passing Rates for Licensure and Certification Examinations
3. Performance of College Transfer Students
4. Passing Rates of Students in Developmental Courses
5. Success of Developmental Students in Subsequent College-Level Courses
6. Satisfaction of Program Completers and Non-Completers
7. Curriculum Student Retention, Graduation, and Transfer
8. Client Satisfaction with Customized Training

Goal 1 Core Indicators of Student Success

1. Progress of Basic Skills Students

Description/Definition—Basic skills students include all adult literacy students. Progress of basic skills students is a composite measure that includes the percent of students progressing within a level of literacy, the percent of students completing a level entered or a predetermined goal, and the percent of students completing the level entered and advancing to a higher level.

Methodology and Data Source—Data on basic skills students are collected by the college providing the instruction and entered into the Literacy Education Information System (LEIS). Data on the progression of basic skills students are submitted to the North Carolina Community College System Office annually. The data are compiled at the system office, and the composite measure and adjustment for each college are calculated.

Performance Standard—Standard for the progress of basic skills students is 75 percent for the composite measure. This measure is a required performance funding measure.

WAKE TECH DATA:

Wake Tech basic skills students are progressing at 85%. Wake Tech served 7,762 in its Literacy Program in 2006-2007.

PROGRESS OF BASIC SKILLS STUDENTS 2006-2007

2. Passing Rates for Licensure and Certification Examinations

Description/Definition—The percentage of first-time test takers from community colleges passing an examination required for North Carolina licensure or certification prior to practicing the profession. A licensure requirement for an occupation is one that is required by state statute for an individual to work in that occupation. Certification is generally voluntary but may be required by employers or an outside accrediting agency. Purely voluntary examinations are not reported.

Methodology and Data Source—Data are collected by the Planning, Accountability, Research and Evaluation Section of the North Carolina Community College System Office from the agencies issuing the license or certification. Examination data are reported only for those licensure/certification exams for which data are available from the licensure/certification agencies; data are not collected from the colleges on this measure. The data for most examinations are reported on a fiscal year; however, the data on nursing, emergency medical technician, physical therapy assistant, and veterinary medicine technology are reported on a calendar year.

Passing rates, if not provided, are calculated by dividing the number of persons who successfully pass an examination the first time they take the exam by the number of persons who sit for the exam for the first time. An aggregate institutional passing rate is calculated by dividing the total number of first-time test takers for all reported examinations by the total number of persons who sit for the exam for the first time. For privacy and statistical validity, no examination data are reported when the number of first-time test takers is fewer than 10 persons.

Performance Standard— The performance standard for the aggregate institutional passing rate is 80 percent. To be rated Superior, a college could not have any licensure/certification exams for which the college controlled who was eligible to sit for the exam with a passing rate less than 70%.

3. Performance of College Transfer Students

Description/Definition—College transfer programs provide educational experiences that will enable transfer students to make the transition to a baccalaureate program and perform as well as the students who enroll as first-time freshmen at universities. The purpose of this measure is to compare the performance of community college associate degree students (Associate in Arts, Associate in Science, and Associate in Fine Arts) who transfer to public North Carolina universities with students native to the four-year institutions.

Methodology and Data Source—Data on two cohorts of college transfer students entering the public universities each year are analyzed. One cohort analysis compares the performance of college transfer degree recipients (AA, AS, AFA) at the end of two semesters at the public university to the performance of native juniors. The second cohort analysis compares the performance of college transfer students completing at least 24 hours or more of college transfer courses at a community college but not completing the degree to the performance of native sophomores. A cell size of at least 10 students is required for reporting this measure. Community colleges may elect to work with private colleges and universities in collecting data on students who transfer to those institutions. The data must be consistent with the methodology employed by the UNC GA in calculating the data for transfer to public universities. If colleges submit data from private or out-of-state institutions, then the System Office will include the data with the public university data. When the total number of students is less than 10, the total number of students in three year and the respective percentage are reported.

Performance Standard— 83% of students in both associate degree recipients and the students who transferred with 24 or more semester hours at community colleges had GPA equal to or greater than 2.0 after two semesters at a university. To be identified as exceptional performance, performance of community college transfer students will be equivalent to the performance of native UNC sophomores and juniors: 87% for 2006-07.

WAKE TECH DATA:

80.5% of the 272 Wake Tech students who completed 24 or more semester hours (2005-2006) (but did not earn an associate degree) (<http://planningandresearch.waketech.edu/>) and transferred to a UNC system institution attained an overall GPA of 2.0 or higher after completing two semesters at a UNC institution.

Wake Tech had 91.0% of their 145 College Transfer Associate Degree Recipients (2005-2006) attain an overall GPA of 2.0 or higher after completing two semesters at a UNC institution.

84.2% of Wake Tech college transfer students (417) (2005-2006) attained an overall GPA of 2.0 or higher after completing one academic year at a UNC System institution. (Performance Standard: 83%) (Exceptional Performance Standard: 87%)

4. Developmental Course Passing Rates

Description/Definition—The percent of students who complete developmental English, mathematics, or reading courses with a grade of "C" or better.

Methodology and Data Source— At the end of each semester, colleges submit a Curriculum Registration, Progress, Financial Aid (CRPFA) Report data file to the North Carolina Community College System Office. These student unit record files are loaded into the System data warehouse and are the official data of record for state level reporting. In the CRPFA file, the number and percent of students completing developmental courses with a grade of "C" or better will be calculated.

Performance Standard—Seventy-five percent (75%) of students who complete a developmental course in English, reading or mathematics will have a grade of "C" or better for that course.

WAKE TECH DATA:

During the 2006-2007 academic year Wake Tech had an overall passing rate of 71% (out of 5,551 students) (grades of "C" or better). (Performance Standard: 75%)

	Number Completed	% Passed
English	1,456	72%
Math	3,400	68%
Reading	695	87%

5. Success Rate of Developmental Students in College-Level Courses

Description/Definition—Performance of developmental students in subsequent college level courses will be measured. Specifically, performance of who took developmental English courses and subsequently took college-level English courses was assessed. Likewise, the performance of who took developmental math courses and then took college-level math courses was tracked. The purpose of this measure is to provide evidence that developmental courses equip students with the skills and knowledge necessary for success in their college studies. Once students have successfully completed the developmental courses, they should be able to pass curriculum courses.

Methodology and Data Source— At the end of each semester, colleges submit a Curriculum Registration, Progress, Financial Aid (CRPFA) Report data file to the North Carolina Community College System Office. These student unit record files are loaded into the System data warehouse and are the official data of record for state level reporting. In the CRPFA data file, identify students who took developmental level English, Reading, and Math courses. Then their records were matched with subsequent performance in college-level English and Math courses.

Performance Standard— Eighty percent (80%) of students who completed a developmental course will pass the “gatekeeper” English and/or Mathematics courses for which the developmental course serves as a prerequisite.

WAKE TECH DATA:

85% of the 222 students passed the “gatekeeper” English course for which the developmental course serves as a prerequisite.

89% of the 378 students passed the “gatekeeper” Mathematics course for which the developmental course serves as a prerequisite.

88% of the 600 students who took developmental courses passed the gatekeeper English and/or Mathematics course for which the developmental course serves as a prerequisite (2006-2007). (Performance Standard: 80%)

6. Satisfaction of Program Completers and Non-Completers

Description/Definition—This indicator reports the proportion of graduates and early-leavers who indicate that the quality of the college programs and services met or exceeded their expectations.

Methodology and Data Source—Data are collected by survey, with each college using a standard set of questions. For colleges with fewer than 250 non-returning students, a minimum of 25 valid surveys must be obtained. For the colleges with more than 250 nonreturning students, a response rate equal to 10% of the total non-returning students or a statistically valid sample size must be obtained.

Performance Standard—Ninety percent (90%) of the combined respondents will report to be satisfied with the quality of the college's programs and services.

WAKE TECH DATA:

Wake Tech's Program Completers (graduates) had a 98% satisfaction rate (632 returned). (2006-2007)

Wake Tech's Non-Completers had a 93% satisfaction rate (453 returned) (2006-2007)

The combined satisfaction rate of Completers and Non-Completers was 96%. (Performance Standard: 90%)

7. Curriculum Student Retention, Graduation, and Transfer

Description/Definition—This composite indicator consists of:

1. Number of individuals completing a curriculum program with a certificate, diploma, or degree; and
2. Number of individuals who have not completed a program but who are Continuing enrollments in either curriculum or occupational extension programs.
3. Number of individuals who transferred to a university or another community College. This composite indicator will consist of the above three measures, each reported separately for each college. The sum of the three will be divided by the total number of curriculum students in the cohort to compute an indicator of curriculum student progress and success.

Methodology and Data Source: Cohorts will be defined each fall based upon number of students enrolled in degree granting curriculum programs (associate degree, certificate, and diploma). At the end of each semester, colleges submit a Curriculum Registration, Progress, Financial Aid (CRPFA) Report data file to the North Carolina Community College System Office. These student unit record files are loaded into the System data warehouse and are the official data of record for state level reporting. Each college has a minimum of two trained Skilled Knowledge Workers (SKW) with complete access to their data in the data warehouse. Each SKW has the ability to verify the accuracy of the data once loaded into the data warehouse. The cohort is tracked from fall to fall using data from the data warehouse to determine those who have graduated and those who have continued to be enrolled. This number, divided by the initial cohort, is the percentage reported. Transfer rates were calculated using the National Student Clearinghouse data.

Performance Standard—65% of Fall degree seeking students will either re-enroll, transfer, or graduate by the subsequent Fall.

8. Client Satisfaction with Customized Training

Description/Definition—The percentage of businesses/industries who have received services from a community college indicating that their expectations have been met. This measure is intended primarily to determine the satisfaction of organizations that received services from a community college.

Methodology and Data Source—A survey for businesses/industries receiving services from New and Expanding Industry Training and the Small Business Centers is administered by colleges to determine level of satisfaction with their customized training. The data are submitted annually to the System Office at the end of the fiscal year.

Performance Standard—Ninety percent (90%) of businesses/industries surveyed will report satisfaction with the services provided by community colleges.

**SUMMARY REPORT ON PERFORMANCE MEASURES 2006-2007
NORTH CAROLINA COMMUNITY COLLEGE SYSTEM**

MEASURE	STANDARD	SYSTEM AVERAGE	# COLLEGES MEETING STANDARD
Progress of Basic Skills Students	75%	80%	55
Passing Rates on Licensure/ Certification Exams for First- Time Test Takers	Aggregate = 80%	83%	33*
Performance of College Transfer Students	83%	84%	37**
Passing Rates in Developmental Courses	75%	81%	43***
Success Rate of Developmental Students in Subsequent College- Level Courses	80%	88%	48***
Student Satisfaction of Completers and Non-Completers	90%	97%	57
Curriculum Student Retention, Graduation & Transfer	65%	68%	50
Business/Industry Satisfaction With Services Provided	90%	94%	58

* 33 colleges met the 80% standard; 24 colleges had no exam for which they controlled who took the exam with a pass rate < 70%.

** 37 colleges met the 83% standard; 22 colleges met or exceeded the performance of native UNC sophomores and juniors (87%).

*** Data not available on five (5) colleges due to collection programs related to the implementation of CIS

STATUS OF WAKE TECHNICAL COMMUNITY COLLEGE

Meeting Performance Standards

	Performance Measure	2006-2007
1	Progress of Basic Skills Students	M
2	Passing Rates on Licensure and Certification Examinations	M
3	Performance of College Transfer Students	M
4	Passing Rate of Students in Developmental Courses	
5	Success Rate of Developmental Students in Subsequent College-Level Courses	M
6	Satisfaction of Program Completers and Non-Completers	M
7	Curriculum Student Retention, Graduation, and Transfer	M
8	Satisfaction with Customized Training	M
	Total Standards Met or Significant Improvement	7
	Recognition of Exceptional Institutional Performance	

In 2007 the North Carolina General Assembly approved the modification to the North Carolina Performance Measures and Standards as adapted by the State Board of Community Colleges on March 16, 2007. As a result, the number of performance measures was reduced to eight (8).

Recognition for Exceptional Institutional Performance

In order to meet the Exceptional Institutional Performance benchmark (qualify for additional funding) the college must successfully meet all eight performance measures and the following criteria:

1. The passing rate on all reported licensure/certification exams for which the college has authority over who sits for the exam must meet or exceed 70% for first-time test takers, AND
2. The percent of college transfer students with a 2.0 GPA after two semesters at a four-year institution must equal or exceed the performance of students who began at the four-year institution (native students).

Community Services

A. Total Number of courses and students enrolled through community service (avocational, practical skills, academic and recreational).

	Number of Courses	Number of Students
2000-2001	512	4,891
2001-2002	444	3,594
2002-2003	512	4166
2003-2004	330	4,073
2004-2005	504	4,697
2005-2006	422	3,674
2006-2007	248	2,866
2007-2008	336	3,739

B. Enrollment of Senior Citizens

	Curriculum	Continuing Education
2000-2001	29	1,075
2001-2002	23	994
