## **PURPOSE OF THIS FACT BOOK**

This **Fact Book** is designed to provide the public whom we serve, college administrators, planners, and other selected individuals such as trustees, local commissioners, legislators, and key college friends with an easily readable compilation of data about the College. While some historical information is included, the data and facts provide a profile of the College for one year. Accumulations of data, such as data for the last five years, are included as appropriate to illustrate change or percent of change.

This book has been compiled by the College's Office of Institutional Effectiveness and Research under the direction of Dr. John B. Boone, Associate Vice President of Institutional Effectiveness and Research.

Every effort has been made to make the **FACT BOOK** as error-free as possible. However, it will be greatly appreciated if typographical errors, incorrect data, and suggestions for improving the **FACT BOOK** are forwarded to the Office of Institutional Effectiveness and Research, Room 128, Holding Hall. Ms. Tammy Stephenson may be reached at 662-3451 and Dr. John Boone at 662-3454

## **MISSION STATEMENT**

The mission of Wake Technical Community College is to provide quality education and training for the workforce including vocational, technical, college/university transfer, and basic skills programs. The College is a public, two-year, comprehensive, post-secondary educational institution. The major purpose is and shall continue to be the offering of quality vocational and technical education and training. Through its open-door policy, the college offers educational opportunities to all adults regardless of age, sex, socio-economic status, ethnic origin, race, religion, or disability.

## **ROLE AND SCOPE**

In order to implement its mission through clearly defined programs and services, the College:

offers credit programs leading to associate degrees, diplomas and certificates designed for immediate entry into employment, an associate degree in general education, and associate degrees designed to transfer to four-year institutions. The College also offers pre-curriculum programs for students to develop academic proficiency so that they may successfully complete curriculum courses.

provides occupational career enhancement programs for individuals and support for economic development to businesses, industries, and agencies. Basic skills education, English as a Second Language, and a wide variety of continuing education courses and programs for personal enrichment are offered on campus and throughout the county. The College further serves its constituents by providing a broad range of community services, partnerships and outreach programs.

provides a wide range of support services designed to assist students in successfully fulfilling their education and occupational goals. These services, developed to meet the diverse needs of individual students, begin with their initial contact with the College and continue throughout their enrollment and job placement or transfer for further study.

practices sound fiscal management and systematic planning to provide facilities, equipment, and state-of-the art technology to ensure quality education opportunities at secure facilities accessible to Wake County citizens.

## **OUR VISION**

Wake Tech will be a leader among the 59 NCCCS institutions and will:

- ◆ strive for quality and excellence in all educational programs by closely monitoring students satisfaction and success through a comprehensive system of research and institutional effectiveness

- ◆ position itself as a primary choice of Wake County citizens for workforce development, occupational, college/university transfer, basic education, and lifelong learning opportunities.
- ◆ be a major partner in attracting new and expanding business and industry by emphasizing human resource development and technology transfer.
- ◆ maximize service to area citizens by listening and responding to changing educational needs.

## **COLLEGE GOALS**

### **Student Success**

Provide a dynamic learning environment to ensure successful achievement of students' goals by administering sound policies, curricula, instruction and support services.

### **Workforce Development**

In collaboration with *Regional Economic Development Partnerships*, identify the workforce needs of emerging jobs in rural and urban economies in North Carolina. Develop and implement the educational and training programs necessary to meet the workforce needs of each region and college services area and promote recruitment, retention and development of high quality faculty and staff necessary to achieve the educational and training objectives of the community college system and provide North Carolina with a world-class workforce.

### **Diverse Populations Learning Needs**

Provide North Carolina citizens with the opportunity to develop essential skills for lifelong learning. Upgrade and retrain North Carolina learners for the workplace through flexible, accessible, customized educational and training programs within their communities.

### **Resources**

Continuously research, analyze and secure the resources necessary to fulfill the mission of the North Carolina Community College System and develop processes for measuring the effectiveness of resource allocations and utilization, within the North Carolina Community College System.

**Technology**

Encourage and support North Carolina Community College faculty and staff in the effective and efficient uses of instructional technology and administrative computing systems to improve the delivery of academic programs to North Carolina citizens.

**Community Services**

Provide courses and support service activities for the enrichment of the community's civic, economic, and cultural needs.

**Southern Association of Colleges and Schools Accreditation**

Wake Technical Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane; Decatur, Georgia 30033-4097; Telephone Number 404-679-4501) to award the associate degree.

## GLOSSARY

**Academic Extension (non-credit) Courses** consist of single courses, each complete in itself, designed to serve the academic educational needs of adult citizens.

**Academic Semester** - A sixteen week period during which credit classes are offered.

**Academic Year** - The academic year includes fall and spring semesters as well as an eleven-week summer term.

**Accreditation** - A formal means of recognizing an institution for maintaining standards that qualify the graduate for admission to higher institutions or for professional practice. Accrediting agencies are responsible for establishing the standards and evaluating the school's compliance with them (e.g., Southern Association of Colleges and Schools, American Dental Association, Engineering).

**Accountability** - The acceptance of personal responsibility for the achievement of predetermined measurable objectives.

**Adult Education** - Programs offered by a community college or technical institute that provide opportunities for adults and out-of-school youth to further their education.

**Associate in Applied Science Programs** - These programs range from 64 to 76 semester hour credits. A full-time student can typically complete one of these programs within two years. In addition to major course work, associate in applied science degree programs require a minimum of 15 semester hour credits of general education. General education requirements include course work in communications, humanities/fine arts, social/behavioral sciences and natural sciences/mathematics. Certain courses in associate degree programs may be accepted by a four-year college or university for transfer credit in an associated field.

**Average Annual FTE** - The annualized FTE of the fall and spring semesters added together for a given year.

Example: One full-time equivalent (FTE) student represents 16 student membership hours per week for 16 weeks or 256 student membership hours for each semester enrolled. Thus, if:

Fall Semester =  $\frac{2,483,200}{512}$  membership hours = 4850 FTE  
512 membership hours annualized  
(256 X 2 semesters = 512)

Spring Semester =  $\frac{2,380,800}{512}$  = 4650 FTE

Average Annual FTE = 4850 (Fall)  
+4650 (Spring)  
9500

**Avocational Extension (non-credit) Courses** consist of single courses, each complete in itself, which focus on an individual's personal or leisure needs rather than his occupation, profession, or employment.

**Basic Skills** - One of the primary missions of Wake Tech is to offer educational opportunities for adults 16 years of age and older who are out of school. Wake Tech provides educational opportunities through five major literacy components, consisting of classes located at work sites, churches, community centers, schools, libraries, sheltered workshops, prisons and the community college campuses.

**Adult Basic Education (ABE)** - A program of basic skills for adults, 16 years of age or older and out of school, who function at less than a high school level.

**General Educational Development (GED)** - A high school equivalency program enabling adults to take the General Education Development Tests to determine if they are at the 12th grade completion level of English, social studies, science, reading, and math. Individuals achieving the required scores on the GED are awarded the High School Equivalency Diploma. The program is open to individuals 18 years or older.

**Adult High School (AHS)** - A program of instruction offered cooperatively with local public school systems to help students earn an adult high school diploma.

**English as a Second Language (ESL)** - A program of instruction to help adults with limited or no English language proficiency.

**Compensatory Education** - A special state-funded educational program for developmentally handicapped adults (over 17 years of age).

**Base Budget** - Appropriations made by the Legislature to fund the current level of operation.

**Capital Outlay** - Capital outlay expenditures are those that result in the acquisition of fixed assets or additions to fixed assets (i.e., expenditures for land, buildings, or equipment).

**Categorical Funds** (restricted) - Funds from a federal, state, local, or private source that are restricted to expenditures in a particular category or program.

**Certificate Programs** - These programs range from 12 to 18 semester hour credits and can usually be completed within one semester by a full-time student. Associate degree level courses within a certificate program may also be applied toward a diploma or an associate in applied science degree.

**Certification** - A voluntary form of recognition for knowledge and skill in a particular profession.

**Clock Hour** - One hour of instruction given one student. Class periods from 50-60 minutes may be counted as one clock hour depending on the type of instruction delivered.

**College Transfer Programs** - These programs are offered through the Associate in Arts, Associate in Fine Arts and Associate in Science degrees. The Associate in Arts and the Associate in Science programs are part of the Comprehensive Articulation Agreement (CAA). This agreement addresses the transfer of students between institutions in the North Carolina Community College System and the constituent institutions of the University of North Carolina System.

**Community Service Programs** consist of those continuing education (extension) programs that are directed to the academic, avocational, and development of personal skills of the community.

**Competency-Based Instruction** - Instruction based on measurable student performance outcomes consistent with the skills and knowledge needed by entry-level employees in a particular field.

**Continuing Education/Extension Programs** include New and Expanding Industry, and Self-Supporting Recreational programs in addition to the Regular Budget Extension program areas of Adult High School, Academic Extension, Avocational Extension, Occupational Extension, Practical Skills, Adult Basic Education and Compensatory Education.

**Credit Hour** - An instructional unit used for recognition of the amount of credit a student earns for a given course. Example: Semester Credit Hour - A student who spends one classroom hour per week in a class for sixteen weeks earns one semester hour credit.

**Current Expense** - Funds used for the general operation of the institution to include salaries, benefits, and other instructional costs.

**Curriculum Programs** - A term used to describe a wide variety of planned educational programs which range in length from one semester to two years. The programs lead to certificates, diplomas or associate degrees, depending on the nature of the curriculum. Curriculum programs include certificate, diploma, Associate in Applied Science, Associate in Arts, Associate in Fine Arts, Associate in Science and Associate in General Education programs.

**Developmental Education** - A program providing specialized credit courses for students who need to improve their basic skill in order to perform at the level required for admission to degree and diploma programs. Usually these courses are in reading, writing, and mathematics.

**Diploma Programs** - These programs range from 36 to 48 semester hour credits and can usually be completed by a full-time student within two semesters and one summer term. Associate degree level courses within a diploma program may also be applied toward an Associate in Applied Science degree.

**English as a Foreign Language (EFL)** A pre-curriculum program designed to help non-native speaking students acquire sufficient skills in English to enter and succeed in curriculum (academic) programs. These courses are available only on Wake Tech's 401 South Campus.

**English as a Second Language (ESL)** - A program of instruction to help adults with limited or no English language proficiency. These courses are usually offered through continuing education at off-campus sites for students who have non-academic goals such as improvement of job performance, better communication with family members or the general public, etc.

**Expansion Budget** - Additional funds from the Legislature to increase the quantity or quality of services rendered.

**Fiscal Year** - The twelve-month period upon which the institution's budget is based, July 1 - June 30.

**Full-Time Equivalent (FTE)** - One full-time equivalent (FTE) student represents 16 student membership hours per week for 16 weeks or 256 student membership hours for each semester enrolled.

**Annual Curriculum FTE** - The total of fall and spring FTE.

**Annual Extension FTE** - The total of spring, summer and fall sequenced periods FTE.

**Budget Full-Time Equivalent (B/FTE)** - Used to prepare the operating budget and to provide for an equitable distribution of the operating funds allocated by the State Board to the institutions.

**Equipment Full-Time Equivalent (E/FTE)** - Used to prepare the equipment budget and to provide for an equitable distribution of the equipment funds allocated by the State Board to the institutions.

**Library Full-Time Equivalent (L/FTE)** - Used to prepare the library budget to provide for an equitable distribution of library funds allocated for the purchase of library books and audiovisual materials.

**Credit Hour Full-Time Equivalent (H/FTE)** - Used in furnishing data to the North Carolina Commission on Higher Education Facilities and the University of North Carolina.

**Construction Full-Time Equivalent (C/FTE)** - Used to determine priorities and institutional eligibility for federal and state construction funds for the institutions.

**Full-Time Students** - A student is considered full time if he/she carries 12 or more semester credit hours of classes.

**General Education Programs** - These programs are designed for individuals wishing to broaden their education, with emphasis on personal interest, growth and development. The two-year General Education program provides students opportunities to study English, literature, fine arts, philosophy, social science, science and mathematics at the college level. All courses in the program are college-level courses. Many of the courses are equivalent to college transfer courses; however, the program is not principally designed for college transfer. Successful completion of 64-65 semester hour credits leads to an associate in general education degree.

**Human Resources Development (HRD)** - A program for chronically unemployed adults with prevocational training and counseling.

**Job Training Partnership Act (JTPA)** - A federal program designed to provide job training and employment opportunities for economically disadvantaged, unemployed, or underemployed persons.

**Learning Laboratory Programs (Center)** consists of resources to help students succeed in their courses of study at Wake Tech. A learning lab coordinator or instructor offers one-on-one tutorial assistance, combined with a variety of other techniques and materials such as audiovisual and computer equipment and self-instructional materials, in an effort to help students learn.

**New and Expanding Industry Programs** provide for the training needs of new industries which are moving into the state and also for existing industries undergoing a major expansion which result in the need for additional skilled manpower.

**Non-Credit (Extension) Courses** - Courses for professional training, upgrading or general interest.

**Occupational Education** - Any type of instruction or training (credit or non-credit) that prepares one to enter an occupation.

**Other Costs** - A term used to describe current instructional and operating instructional support costs excluding personnel and the associated fringe benefits. The term is used for supplies, travel, postage, etc.

**Pell Grants** - Needs-based federally funded grants.

**Practical Skills Extension (non-credit) Programs** consist of single courses each complete in itself, designed to provide practical training for persons pursuing additional skills which are not considered their major primary vocation but may supplement income or may reasonably lead to employment.

**Regular Budget Extension Programs** include Adult High School, Occupational Extension, Adult Basic Education and Compensatory Education.

**Self-Supporting Recreational Programs** are self-supporting courses which the college may provide at the request of the community but for which the college receives no budgetary credit.

**Unduplicated Headcount** - The total number of students (both full-time and part-time) enrolled in all courses during a year. Each student is counted only once during the year regardless of the number of classes he/she takes or the number of semesters for which he/she registers.

# **THE COLLEGE**

## HISTORY

Wake Technical Community College is a public educational institution, nonprofit and tax supported, under the control of a Board of Trustees. It is an institutional member of the North Carolina System of Community Colleges, State Board of Community Colleges. Authority for the establishment of the College is found in Chapter 115D of the General Statutes of North Carolina and the amendments thereto.

The College was chartered April 3, 1958, as the Wake County Industrial Education Center under the governance of the Wake County Board of Education. In 1961, the Board employed Dr. Kenneth M. Wold as the Center's first Director and charged him with the responsibility of "developing a program of training for adults."

Because there was no central training facility, the first training efforts were conducted in cooperation with employers and users of the training. Practical nursing classes, for example, were held at Wake Memorial Hospital; fire prevention and lifesaving classes were held among area fire departments; and instruction in machine operating and supervision was provided at industrial locations.

On October 7, 1963, operation of the Center began at its present location in a single building of 40,795 square feet and costing \$560,000. There were 34 full-time students enrolled in classes on campus and an additional 270 enrolled in industrial training programs at locations throughout the County.

On January 8, 1964, the Center was formally dedicated as the W. W. Holding Industrial Education Center and was transferred from the authority of the Board of Education to an eight-member Board of Trustees.

In September 1965, Dr. Kenneth M. Wold resigned as Director, and Robert W. LeMay, Jr., head of the Center's general adult and community service programs, was named Acting Director. Mr. LeMay was named President on February 16, 1966.

On March 3, 1966, W. W. Holding Industrial Education Center was granted approval by the State Board of Education as the W. W. Holding Technical Institute.

The name was changed to Wake Technical Institute in 1974 and to Wake Technical College on March 1, 1980. The name was changed to Wake Technical Community College on December 1, 1987, to better reflect the college-level instruction that is provided.

Robert W. LeMay, Jr., served as President through June 30, 1979, at which time James A. Cox, the College's Vice President for Administration, was appointed temporary President. He served until June 30, 1980.

Dr. Bruce I. Howell was named the College's third President on July 1, 1980.

The College has grown since 1963 from the one building of 40,795 square feet to three campuses and facilities that include twenty-two permanent structures totaling over 733,000 square feet.

Today these facilities and a staff and faculty of just over 490 people serve a curriculum unduplicated headcount of approximately 12,000. When non-credit instruction is added to the College's service to Wake County citizens, approximately 44,000 persons take one or more courses annually.

The College entered a contractual agreement with the University of North Carolina at Greensboro to offer college transfer courses in the fall of 1991. Subsequently, a college transfer program was approved to be offered by Wake Tech in the fall quarter of 1992. Students enrolled in the College Transfer program earn Associate in Arts and Associate in Science degrees. The College became a fully comprehensive community college in the fall of 1992.

The Wake Technical Community College News and Observer Adult Education Center formally opened in August 1993. The Center was made possible through a \$100,000 gift from the News and Observer Foundation. Located on Capital Boulevard, the Center provides a home for the College's basic skills program, one of the largest in the North Carolina Community College System. The Adult Education Center also is the headquarters for Wake Tech's Small Business Center.

Wake Tech's share of county and state bond referendums held in 1993 was \$41 million. These funds were designated to build a student education/classroom building, connect the main campus to Fuquay-Varina's waste water treatment plant, construct a parking deck at the Health Education Campus, and renovate and repair existing facilities. During the summer of 1994, construction began on the student education/classroom building, and it was opened on December 3, 1996.

In January 1994, Wake Tech acquired 132 acres of land on Highway 401 North for a site for a northeast Wake County campus. This campus will serve the residents of northern Wake County. Wake Tech was designated a multi-campus college by the State Board of Community Colleges on February 16, 1996.

After a two-year in-depth self-study and an on-site visit by collegiate peers from across the southeastern United States in March 1995, Wake Tech's accreditation to award the associate degree was reaffirmed by the Commission on Colleges of the Southern Association of Colleges and Schools for another ten years.

In the fall of 1997, Wake Tech, along with the other 57 colleges of the North Carolina Community College System, converted from the quarter system to the semester system.

On June 19, 1998, the State Board of Community Colleges approved Wake Tech's request to change the Allied Health Center to the Health Sciences Campus.

In 2001 Wake Tech purchased 12 acres adjacent to Tech Road (SR 2811) and the US 401 South Main Campus for the construction of additional parking spaces for faculty, staff and students.

In 2002 Wake Tech along with several other community colleges (Edgecombe, Johnston, Nash, Wayne, and Wilson) opened the eastern North Carolina Plastics Technology Center in Zebulon (Wake County). This 8,000 square foot building will house the specialized laboratory courses associated with the Manufacturing Technology/Plastics Program at each of these six institutions.

On October 15, 2003, Dr. Bruce I. Howell retired, as President of Wake Technical Community College and Dr. Stephen C. Scott became the College's fourth President.

## **FACILITIES GROWTH**

When Wake Tech opened in 1963, there was one building of 40,795 square feet on a 30.8 acre tract. This building, named in honor of W. W. Holding, a long-time member of the Wake County Board of County Commissioners, was twice enlarged to its present size of 43,348 square feet.

In 1966-67, a maintenance shop and a laboratory building of 8,990 square feet were added to the campus. Additional property was purchased between 1968 and 1972, which increased the campus size to 76.64 acres.

In 1968, the business education building of 22,540 was constructed and named in honor of Leo Pucher, the College's first Board of Trustees Chairman who was also instrumental in founding the College. Also, vocational laboratories were expanded in 1968 and a 36,405 square-foot addition, which was named in honor of Dr. I. E. Ready who was Director of the Department of Community Colleges, was completed.

Two buildings and approximately 3.5 acres adjacent to Wake Medical Center were dedicated in 1972 by the Wake County Commissioners for health education. Subsequently, a power mechanics laboratory building was completed in 1974 on the main campus.

By 1975, a student services building of 28,066 square feet was constructed for the rapidly increasing student body. This facility was named in honor of Robert W. LeMay who served as President from 1966 until 1979.

Maintenance and storage facilities were added in 1980.

The technical education building, occupied in 1982, provides 40,860 square feet of classroom, laboratory and auditorium space for the conduct of technical education.

The College continued to grow with a 8,320 square-foot microelectronics laboratory addition completed in early 1984.

A mechanical technology building was completed in 1987. In approximately 16,980 square feet of space, this building provides space for a machine shop, two automation/robotics laboratories, and three classrooms.

In late 1988, construction was completed on a 84,000 square-foot library education building. This building features a 28,000 square-foot library with study rooms, drafting and typing labs; an enlarged audiovisual area with a new studio and two darkrooms; two architectural drafting labs; and 36 additional classrooms.

The 1990-91 school year was a busy one for campus construction. A 16,600 square-foot child care center was completed. It includes classrooms, offices, child care areas, and a full-service kitchen. Also, a 32,000 square-foot health education building that houses a library, offices,

classrooms, and laboratories was completed. Additional parking was provided for both facilities.

In August 1993, the College, with the assistance of a \$100,000 gift from the News and Observer Foundation, opened the News and Observer Adult Education Center. Located on Capital Boulevard, the Center provides a home for the College's basic skills program, one of the largest in the North Carolina Community College System. The 21,545 square-foot leased building, previously occupied by Hardbarger Business College, includes 12 classrooms, three computer labs, a student lounge, ten offices, a seminar/conference room, and a full resource center with individualized learning materials.

In 1996, Wake Tech opened a parking deck at the Health Sciences Campus and a 110,000 square-foot Student Education building on Main Campus. The Student Education building houses the Hotel and Restaurant Management and Culinary Arts programs and the kitchens and other facilities necessary for those programs, a conference center, and new cafeteria.

During the summer of 1998, the College purchased the Wells Furniture Company property at the corner of U.S. 401 south and Tech Road (SR 2811). This adds 14,200 square feet to the College's facilities inventory.

The College currently owns 509,779 gross square feet (exterior wall measurement), of which 22,260 is leased and 363,626 square feet are assignable to, or available for assignment to, an occupant or specific use.

In the Spring 2000, Wake Tech opened the Business and Industry Center located at 600 New Waverly Place, Cary. The 14,963 square-foot leased building includes five computer labs, three classrooms, two conference rooms and ten offices.

In 2001 Wake Tech purchased 12 acres and constructed additional parking spaces adjacent to Tech Road (SR 2811) behind the Wells Furniture Company property.

In 2002 Wake Tech along with several other community colleges (Edgecombe, Johnston, Nash, Wayne, and Wilson) opened the Eastern North Carolina Plastics Technology Center in Zebulon (Wake County). This 8,000 square foot building will house the specialized laboratory courses associated with the Manufacturing Technology/Plastics Program at each of these six institutions.

In 2003, a 75,279 square-foot health sciences building was completed as well as an 86,500 square-foot engineering technology building on the main campus.

## **WAKE TECHNICAL COMMUNITY COLLEGE FOUNDATION, INC.**

Wake Technical Community College Foundation is a 501 (c) (3) nonprofit corporation established to serve as a conduit for a strong financial partnership with the private sector, supporting the community mission of Wake Technical Community College with gifts of cash and in-kind contributions of equipment and services that enhance the College's ability to fulfill its mission.

A 25-member Board of Directors comprised of community and business leaders in the Triangle area promote and administer a variety of funds from the private sector, including:

The Wake Tech Fund is the general fund that supports programs that receive limited or no support from traditional tax revenues, including institutional opportunities, student scholarships, financial aid grants, professional development needs of faculty and staff, the acquisition of state-of-the-art equipment and other areas that elevate the College's service role in the community to a greater prominence.

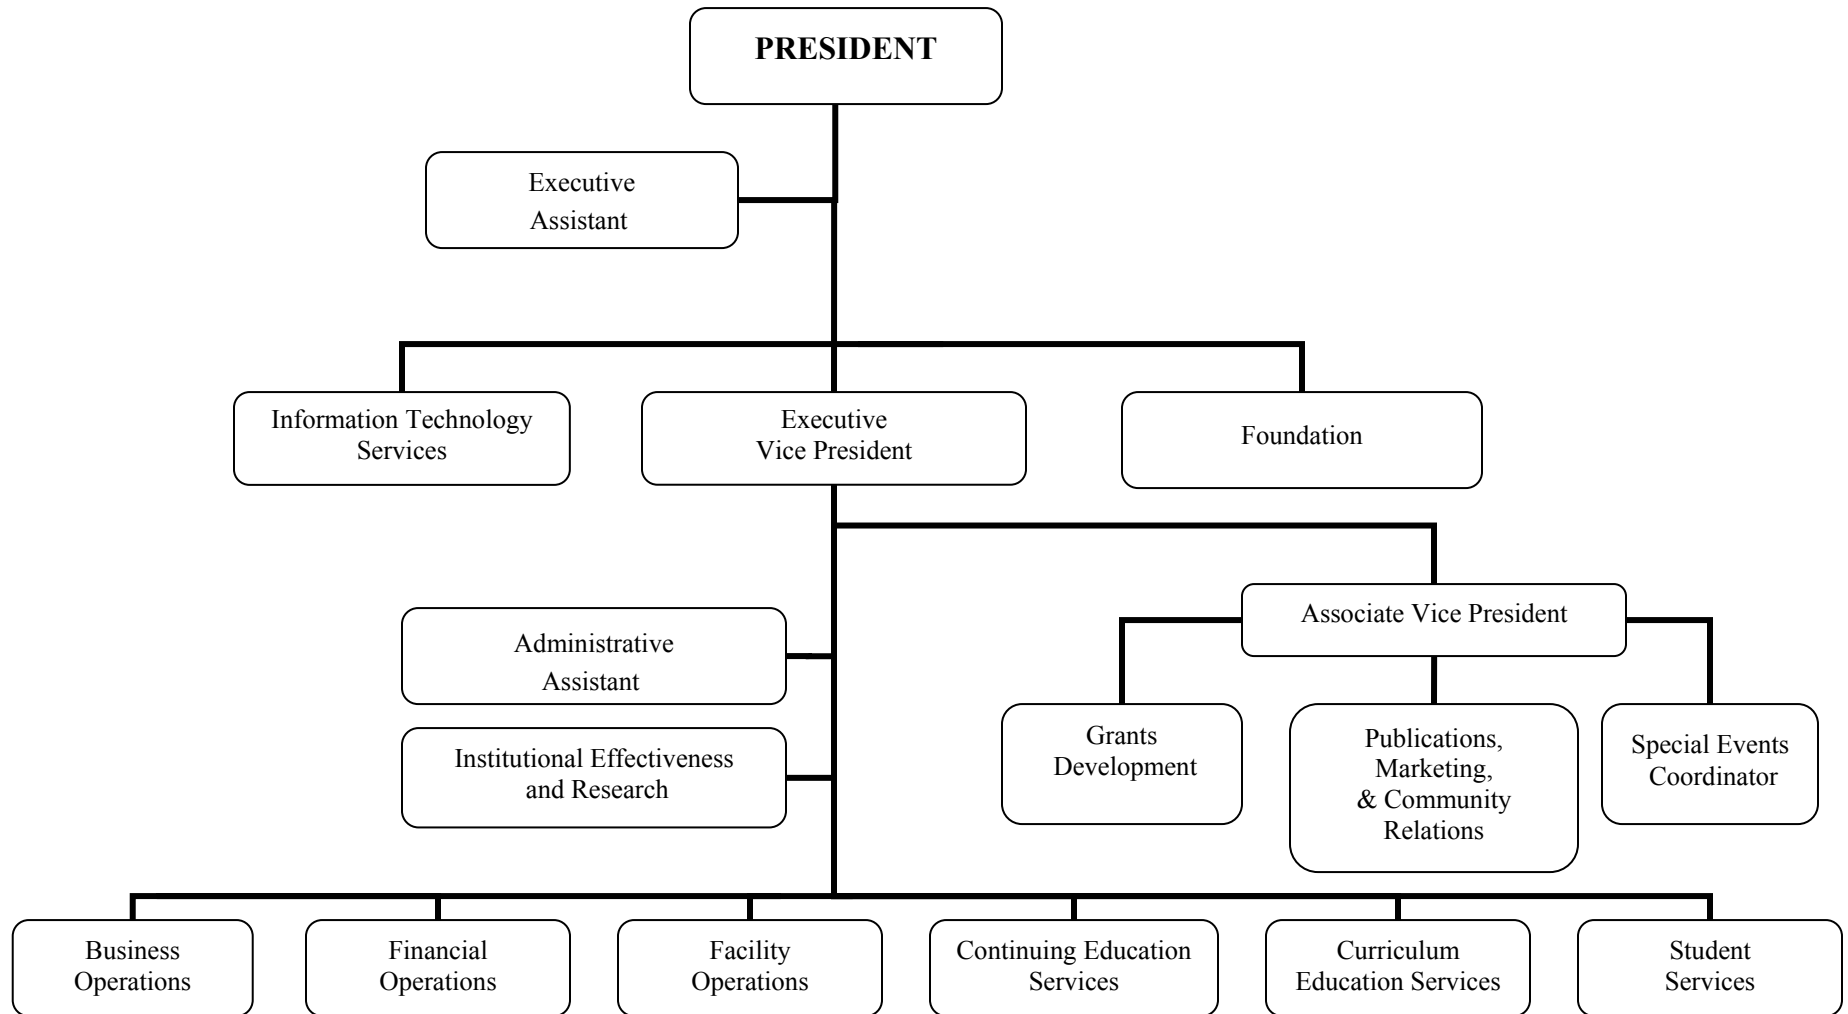

Donor-Restricted Funds benefit the interests of the donor as well as the College by providing restricted gifts to specific academic programs and scholarships that accommodate and address certain employment needs.

Endowment Funds are often established through various estate or major gifts which qualify for special tax consideration, creating permanent funds from which the interest income can be allocated to a specific area or serve as a source of supplemental revenues to state and local taxation.

Gifts-in-Kind from business and industry enhance and improve the quality of Wake Tech's instructional programs and labs with equipment that keeps technology current and instruction up to industry standards.

Since 1988, corporations, businesses, alumni, friends, trustees and employees have strengthened Wake Tech's programs with cash and noncash gifts to Wake Technical Community College Foundation totaling nearly \$6.5 million.

Figures taken from 2003 Graduate Placement Survey.

Curriculums not represented had 0% return for salary information.

Unrelated and part-time employment are not calculated in ranges and averages.

Duplication of salaries could be recorded since multiple copies of the survey were mailed.

Surveys were not mailed out from Job Placement but are maintained in that Office.

EXTENSION FTE: Includes Academic, Adult High School, Avocational, Occupational, Practical Skills, ABE, Compensatory Education, Learning Lab (ILC), New and Expanding Industry, Human Resource Development, and Self-Supporting.

BASIC SKILLS (LITERACY) FTE - Includes Adult High School, ABE, and Compensatory Education

HUMAN RESOURCES DEVELOPMENT FTE - Includes Human Resources

SMALL BUSINESS CENTER FTE - Includes New and Expanding Industry, and Self-Supporting.

REGULAR BUDGET EXTENSION - Includes Adult High School, Occupational, Adult Basic Education, and Compensatory Education.

NON-REGULAR BUDGET EXTENSION - Includes Learning Laboratory, New and Expanding Industry, Human Resource Development, And Self-Supporting.

COMMUNITY SERVICE - Includes Academic, Avocational, Practical Skills, and Cultural and Civic Activities.

OCCUPATIONAL - Includes Occupational only. Occupational Extension Programs consist of single courses, complete in themselves, designed for the specific purposes of training an individual for employment, upgrading skills of persons presently employed, and retraining others for new employment in occupational fields.

SELF-SUPPORTING - Includes courses which the College may provide at the request of the community but for which the College receives no budgetary credit. The cost of such activities are borne exclusively by the participants or some contracting agency.

SPECIAL NOTE: Wake Tech and the North Carolina Community College System changed from the Quarter System to the Semester System beginning with Fall Semester 1997. The Summer of 1997 was a period of transition. Therefore, enrollment and FTE numbers for the Summer of 1997 were diminished.

When comparing annual enrollment and FTE figures for the Quarter System with the Semester System, you must remember to average the Quarter System numbers and sum the Semester System numbers.

## **Facilities Inventory and Utilization Study 2002**

The primary purpose of this research document is to provide higher education administrators with a detailed statistical profile of the facilities of their own campuses and of other colleges and universities in North Carolina (Facilities Inventory and Utilization Study, 2003).

### **Capacity/Enrollment Ratio**

The capacity/enrollment ratio, often referred to as the C/E ratio, is the amount of instructional and library space on campus divided by the total fall term student clock hours of that institution. In analyzing and comparing the capacity/enrollment ratios, it should be kept in mind that a relatively low ratio generally indicates a high level of space utilization.

### **Square Feet of Academic Facilities Per FTE Student**

The ratio of an institution's square footage of academic facilities to its full-time equivalent enrollment represents an important index of the instructional utilization of campus facilities. In this table, the FTE enrollments which are reported for the institutions of the Community College System include only credit enrollment generated in all inventoried space (on-campus only = Main Campus, Adult Education Center, and the Health Education Campus)

### **Average Weekly Room Hours of Instruction in Classroom**

Is the average number of hours that an institution's classrooms are used for instructional purposes each week.

For the purpose of this study, a classroom is defined as a room used to conduct classes that do not require special-purpose equipment for student use.

Daytime utilization is based on all classes with beginning times between and including 5:00 a.m. and 4:59 p.m.; nighttime utilization is based on all other classes. The "All Hours" section in Table 3 indicates the sum of the daytime and nighttime figures for the last five years.

### **Average Weekly Room Hours of Instruction in Class Laboratories**

Is the average number of hours that an institution's class laboratories are used for instructional purposes each week.

For purposes of this study, a class laboratory is defined as a room used primarily for regularly scheduled classes that require special-purpose equipment for student participation, experimentation, observation or practice in a field of study.

Daytime utilization is based on all classes with beginning times between and including 5:00 a.m. and 4:59 p.m.; nighttime utilization is based on all other classes. The "All Hours" section in Table 4 indicates the sum of the daytime and nighttime figures for the last five years.

## Enrollments

This table for 1996-1998 lists only fall on-campus (inventoried space) credit enrollment. Noncredit enrollments are not included. Instruction which took place in facilities not on a community college's facilities inventory was not considered in determining the FTE enrollment listed. For 1999 and 2000, the fall on-campus credit FTE is provided, but as a means of comparison, the total fall credit FTE (representing both on-campus and off-campus credit instruction) is listed for all colleges in parentheses.
