Details

While it is true that accounting professionals are scarce, those with corporate accounting experience are even scarcer. This course will provide you with a solid understanding of corporate accounting practices.

In Accounting Fundamentals II, you will explore such topics as special journals, uncollectible accounts receivable, plant assets, depreciation, notes and interest, accrued revenue and expenses, dividends, retained earnings, and various financial reports for corporations.

If you're interested in increasing your financial awareness and accountability while also gaining a marketable skill, this is the course for you.
