Dr. John B. Boone
Dean of Institutional Effectiveness, Accreditation,
and Research, SACSCOC IALO
Wake Technical Community College
Southern Wake Campus
9101 Fayetteville Road
Raleigh, NC 27603-5696

Dear Dr. Boone:

Thank you for your letter of March 21, 2018, providing notification of the closure of three programs in the Computer Information Technologies Division, effective fall 2018, when no new students will be able to enroll in the programs.

Associate in Applied Science in IT-Software and Web Development

Currently there are 55 students enrolled in the program. They were contacted by email and asked to work with their academic advisor to discuss a plan for completion or discuss a plan for moving to a different program. Students will be allowed to complete their program of study or transfer into another degree program. No faculty members will be adversely affected by the closure since they will continue to teach in the A.A.S. degree program in Computer Programming and Development.

We approve the closure of the A.A.S. in IT-Software and Web Development program.

Database Programming Certificate

Currently there are two students enrolled in the program. They were contacted by email and asked to work with their academic advisor to discuss a plan for completion or discuss a plan for moving to a different program. Students will be allowed to complete their program of study or transfer into another program. No faculty members will be adversely affected by the closure since they will continue to teach in the A.A.S. degree program in Data Science and Programming Support.

We approve the closure of the Database Programming Certificate program.

Simulation and Game Development-Modeling and Animation Diploma

Currently there are two students enrolled in the program. They were contacted by email and asked to work with their academic advisor to discuss a plan for completion or discuss a plan for moving to a different program. Students will be allowed to complete their program of study or transfer into another program. No faculty members will be adversely affected by the closure since they will continue to teach in the A.A.S. degree program in Simulation and Game Development.
